

Operation

Connect the power cable to a 13 amp supply that is located in a safe, dry area.

- Pull the Switch Cord the first time, the heater will on(1500w).
- Pull the Switch Cord the second time, the heater will off(0w).
- Although the patio heater is shower proof, do not use when raining or in wet conditions.
- Always disconnect the power cable from the electrical supply, when the patio heater is not in use.

Maintenance

Unplug the unit and let it cool completely.

- To keep the heater clean, the outer shell may be cleaned with a soft, damp cloth. You may use a mild detergent if necessary. After cleaning, dry the unit with a soft cloth.
- DO NOT use alcohol, gasoline, abrasive powders, furniture polish, or rough brushes to clean the heater. This may cause damage or deterioration to the surface of the heater.
- Although this heater is outdoor approved, DO NOT immerse the heater in water for your safety.
- Wait until the unit is completely dry before use.

Storage

If the heater will not be used for a long period of time, store it in a cool, dry location when not in use. To prevent dust and dirt build-up, use the original packaging to repack the unit.

Trouble shooting

If the heater will not operate, please check the following before seeking repair of service:

- Check if the power cord is plugged into an electrical outlet, if not plug in.
- Check if electricity to the main fuse is working.
- Make certain the power switches are turned on. If not, choose a setting.

This symbol on the product or in the instructions means that your electrical and electronic equipment should be disposed at the end of its life separately from your household waste. There are separate collection systems for recycling in the EU. For more information please contact the local authority or your retailer where you purchased the product.

Single heating floor lamp

Art Nr. 11000000092

Technical specification

- Power supply 220-240V
~ 50-60Hz
- Wattage 1500W
- Insulation class I

Please read these instructions carefully before using your new heater

Important instructions

20. Don't use this unit in place of animal propagating and rising.
21. Don't immerse this unit into water for cleaning.
22. The unit should be plugged in a socket, which is easily visible and reachable.
23. Two Dark points may exist on the surface of the heating elements during the first few minutes after it is turned on. This is normal, and will not affect the performance of the unit.
24. Children of less than 3 years should be kept away unless continuously supervised.
25. Children aged from 3 years and less than 8 years shall only switch on/off the appliance provided that it has been placed or installed in its intended normal operating position and they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children aged from 3 years and less than 8 years shall not plug in, regulate and clean the appliance or perform user maintenance.

Caution

Some parts of this product can become very hot and cause burns. Particular attention has to be given where children and vulnerable people are present.

Assembling

Warning

Please tear off all the hyaline protect film around the big Decoration Cover first!

Step 1: Connect the bottom tube with base by screwing them together.

Step 2: Tighten the middle tube and bottom tube.

Step 3: Tighten the top tube and middle tube.

Step 4: Tighten the upper tube and fittings together.

Step 5: Raise or retract the top tube to the desired height and tighten to the middle tube by screwing knob down.

Step 7: To fix your heater to the ground, drill three holes into the ground, evenly positioned around the edge of the base section, ensuring each bolt is full tighten with a spanner.

Step 6: Fix the cable clamp on the pole, then put the power cord into the cord clip.
