Three-wires Track

Lamp guarantee: 2 years

1.Drill holes in the installation plane according to the installation holes of the track, and fix the guide rail on the installation surface with the rubber plugs and self-tapping screws in the accessory kit;
2.Remove screw A with a screwdriver, open the upper cover of the power connector, connect the mains to the rail power connector, confirm that the live wire (L), neutral wire (N) and ground wire (⏚) are connected reliably, then Reinstall the upper cover, and finally tighten the screws B and C.
